Adult Coloring Book: Roses And Blossoms: Paint And Color Flowers And Floral Designs (Adult Coloring Books)

Synopsis

The art of coloring florals is relaxing and rewarding and the beauty is in the eye of the beholder. In this book you can color the pictures realistically or with an abstract flair. Experiment with color and enjoy your activities. For your ease of use there is only one design per page to protect your work from any bleeding through the page. If using pencils it is also a good idea to use a heavy paper insert behind your work page to prevent any pressure damage to the page behind.

Book Information

Series: Adult Coloring Books

Paperback: 62 pages

Publisher: CreateSpace Independent Publishing Platform; Clr Csm edition (August 10, 2015)

Customer Reviews

Looks to be quality pirated clip art within the pages. Most of this can be obtained on line through various sources, though a Creative Commons License tends to accompany most of it. Missing the required download link for digital coloring books via kindle. Digital products like this are, as far as I have been able to get information from 's site, supposed to have a download link (Front or back) so people can judge the quality of the printed work. Why pay for what is pirated and can be obtained free on line. I'll not be supporting piracy

I didn't like this at all. The pictures were lovely and would be fun to color if it were only possible. There is no way to color them on the iPad and there is no permission to print off a page to color. Completely useless unless you like to look at a back and white drawing.

Nice book but way too small, paper pages are rough not smooth like other adult coloring books.

A nice collection of simple, line drawings. Some of my favorites were ones with birds and butterflies as well as flowers.

Did not like the heavily inked pictures, not much here. I was using it as inspiration of watercolors, but not much inspiration here.....but a few are useful, I can make use of it.

never got this book!!!
