Alfred's Piano 101, Bk 1: An Exciting Group Course For Adults Who Want To Play Piano For Fun!, Comb Bound Book

Synopsis

This comprehensive approach to functional musicianship at the keyboard includes varied repertoire, theory, technique, sight-reading, harmonization from lead sheets, ear training and ensembles. Great for college non-music majors, continuing education classes, music dealer in-store programs, and group piano classes at the middle and high school levels. Book 1 contains 15 units each with a variety of repertoire, exercises, unit review worksheets, and an assignment page. The comb binding creates a lay-flat book that is perfect for study and performance.

Customer Reviews

If you have never played piano, you can start with this book. It will take you from finger numbering to types of notes, through A/B/C/D/E/F/Gs, and a selection of known songs.

This book explains everything really well and has some great practice songs in it. My only complaint would be that it's a little too easy - I had taken a little piano before and I could pretty much play everything in the book with some practice. If you are just starting out though, and have never played before, it's a great resource. Highly recommended!

I found this a great book to start learning piano. My college class uses this book and It is definately a great help.

Good book for a beginner. What you should know is that the book assumes you are in a group and have an instructor playing accompaniment. Does not come with a data disk but it does reference them. Download time!

Great basic book, good one for a college student taking a crash course in piano, Lots of theory and music

Save \$\$ on purchasing this book on-line for my son, who is a college Freshman Music Therapy/Psychology major. No problems with order and in the expected condition, thanks! Satisfied customer - CJ

I do have to say, the book is not in perfect shape. There are rather a lot of notes in the book, but I do not mind since the notes are actually helpful, and the writing is pretty and neat. Other than that though, its perfect. There is no wear on the book. It looks like brand new, just with helpful notes that I probably would have had to write in their anyway.

the book describes all the exercises in easy to understand detail and its great for all ages. Highly recommended if you're looking to learn quickly and efficiently.
