Customer Reviews

As a senior vocal performance major, I can personally vouch for the quality of this book. This anthology offers the more experienced voice student a wide variety of repertoire to work with. I only wish offered this book packaged with the accompaniment CD, for rehearsal purposes. Regardless, I would recommend this book to anyone serious about expanding their vocal repertoire.

This is my favorite baritone book of the series. The repertory is very usable and not as obscure as tjat of the other books.

This was exactly what I needed. Being a private voice student, I am always looking for quality anthologies, and this one fits the bill. Definitely worth the money. The recordings were okay, on some of the pieces it was only the left hand or bass part of the accompaniment. Over all I give it a four.

I love this book for use with my middle school and early high school students. A good variety of

styles and languages to choose from.

Got it for a son, he likes it.

Great collection of songs.
